APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion, is issued with the understanding that no valid rights will be affected thereby and with the further understanding that no additional rights are granted herein.

A substantial headgate and weir must be installed at or near the new point of diversion to facilitate the measurement and control of water. The State reserves the right to regulate the use of water at any time under the change authorized by this permit.

The amount of water which may be diverted at the new point of diversion shall be limited to the amount which can be applied to beneficial use, but not to exceed 1.81 cubic feet per second; provided however that said quantity of water will be modified in accordance with any changes which might be made by the final order of determination and the resultant decree of Court, with respect to the duty of water, in the matter of determination of the relative rights to the water of the Carson River and its Tributaries.

Actual construction work shall begin on or before May 23rd, 1926.

Proof of commencement of work shall be filed before June 23rd, 1926.

Work must be prosecuted with reasonable diligence and be completed on or before May 23rd, 1927.

Proof of completion of work shall be filed before June 23rd, 1927.

Application of water to beneficial use shall be made on or before May 23rd, 1928. Proof of the application of water to beneficial use must be filed with State Engineer on or before June 23rd, 1928.

WITNESS MY HAND AND SEAL THIS 23rd
